

PARTNERSHIP SPOTLIGHT

West Fargo Public Schools

West Fargo, North Dakota

West Fargo Public Schools is a high-performing public school district serving 10,500+ students in grades PK-12. Total minority enrollment is 32% and 38% of students are economically disadvantaged.

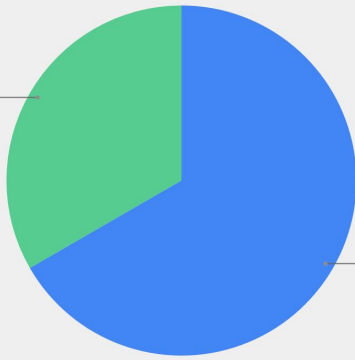

WFPS adopted The Graide Network to replace Turnitin's Revision Assistant. They wanted a product that gave teachers more flexibility with assignments and rubrics and provided more personalized, actionable feedback for students.

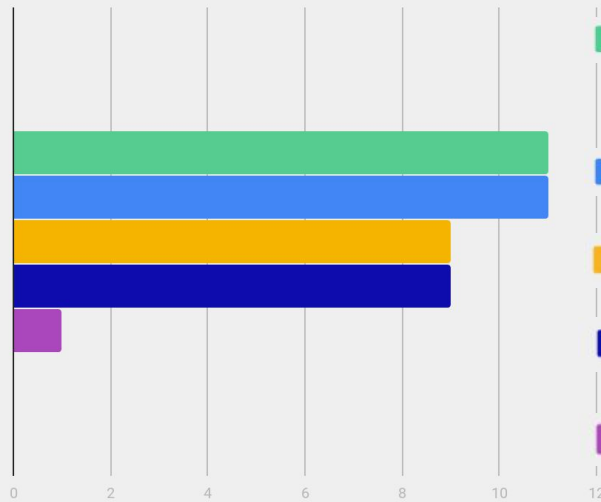

During the 19-20 SY, over 3,400 students in English, SS, and science courses at Sheyenne and West Fargo High School benefitted from Graide Network support. In the words of one happy teacher, *"My students were given **questions to guide their thinking and ways to revise their essay**. The in-line comments gave them **clear areas to focus on and actionable feedback for their writing**. This has exceeded my expectations!"*

Somewhat easy
33.33%

Very easy
66.66%

Teachers found Graide easy to use and easy to integrate into their practice

- During the drafting process to **increase feedback and revision**
- Evaluative tool for **objective data**
- To **norm/validate** teacher feedback
- As a discussion tool **during PLCs**
- To provide information to **parents**

Common instructional uses to improve teacher and learning

*I highly recommend The Graide Network for teacher support. 100% of our teachers anticipate using the product as often or **more often** next year.*
