

## Presenter's guide to Marco Learning's BigMarker Channel page

### Why?

- Access all of your upcoming events and custom Presenter links
- See past events and recordings
- Update your profile pic, bio, and social links you'd like to share with your students.

### Log in

If you have set up your log in before and remember your credentials (your username is this email) go to: <https://www.bigmarker.com/communities/marco-learning/conferences> and click Log In in the upper right corner of the screen.

### New user or forgot password

If you don't remember your username and password go to:

<https://www.bigmarker.com/forgotpassword>

and enter the email address we used to notify you of BigMarker events, likely this one. You should receive a Password recovery email from Team Bigmarker. Check junk/spam if it doesn't show up in your main box.

Once you reset your password, you should be logged in on your BigMarker account.

### Landing Page

The landing page, <https://www.bigmarker.com/communities/marco-learning/conferences>, shows all of your BigMarker webinars you have been set as a presenter – both past and future. You can bookmark it, if you'd like, so you can come back to see your past events as well as those upcoming.

### Update your profile info and picture

To check and update your presenter profile, go to Settings in the left menu and then click Global Profile.

Link to Settings Page:

[https://www.bigmarker.com/settings/manage\\_settings](https://www.bigmarker.com/settings/manage_settings)

You can add a bio pic though the Global profile that will be visible in all of your webinars. In the past there were options to add bio info, but that appears to have been removed in a recent BM update. It may return in a future BM update 😊.
