

Marco Learning Administrator: View Reports

Administrators have access to class, student and aggregate data in the form of three report types:

- Class Reports:** This report provides holistic feedback for the teacher based on class wide performance and detailed data visualization on every rubric component to inform future instruction.
- Student Reports:** These provide each student's score based on the rubric, as well as their personalized qualitative feedback organized by areas of strength and areas of growth.
- All Data Spreadsheets:** This sheet contains all of the raw data for student scores and feedback, as well as identifying information for each student. It is intended for your data team to import into a Student Information System.

Feedback and Score Reports

The table below shows all of the completed assignments for your teachers.

- Individual assignment reports can be downloaded or viewed by clicking the buttons on the right side of the table.
- Reports for multiple assignments can be downloaded by selecting multiple boxes on the left side of the table and then clicking "Download Multiple Reports" on the bottom of this screen.
